

Find your SIWES placement in a tech hub near you

SIWEX: a placement finder for students and tech hubs in Uyo and across Nigeria

300 level project presentation

The problem

- Every technical student must do 12 or 24 weeks of SIWES
- Placements are found by word of mouth and printed letters
- Students do not know which hubs still have space
- Hubs get applications by email and WhatsApp and lose track

4

Uyo hubs from the brief

1

place to apply and track

What SIWEX does

Find

Directory of hubs with filters for city and track. Each role shows slots left, stipend, length and deadline.

Apply

One short note. The app checks deadline, slots, the pending limit and SIWES length before it lets you apply.

Get placed

Hubs accept or reject from a dashboard. Students see their placement week by week.

The hubs

Start Innovation Hub

Ewet Housing Estate, Uyo

The RootHub

IBB Avenue, Uyo

Futtybills

Uyo

Square One

Uyo

Chainspace HQ

Uyo

Co-Creation Hub

Yaba, Lagos

Openings and students are sample data. Addresses that could not be confirmed are labelled in the app.

Your openings

Frontend Developer Intern (React)
Closing soon
Software Development - 0 of 4 filled - deadline 5 Oct 2026

UI/UX Design Intern **Open**
UI/UX Design - 0 of 2 filled - deadline 22 Oct 2026

The rules

Rule	Value
Closing soon	7 days or less to the deadline
Pending limit	3 applications per student
One placement	No new applications after an acceptance
SIWES length	Placement must be at least as long
No response flag	Pending for more than 10 days
Match score	Track 50 + city 30 + length 20

Pure functions that take "today" as input. SIWEX_TODAY pins the date for demos and tests.

How it is built

Next.js 16

App Router, Server Components for pages, Server Actions for forms, Zod validation with inline errors.

PostgreSQL

Drizzle ORM with versioned SQL migrations. Every query scoped to the signed-in user.

Auth

bcrypt password hashes. Signed JWT in an HTTP-only cookie. proxy.ts guards dashboards.

Tested and deployed

41

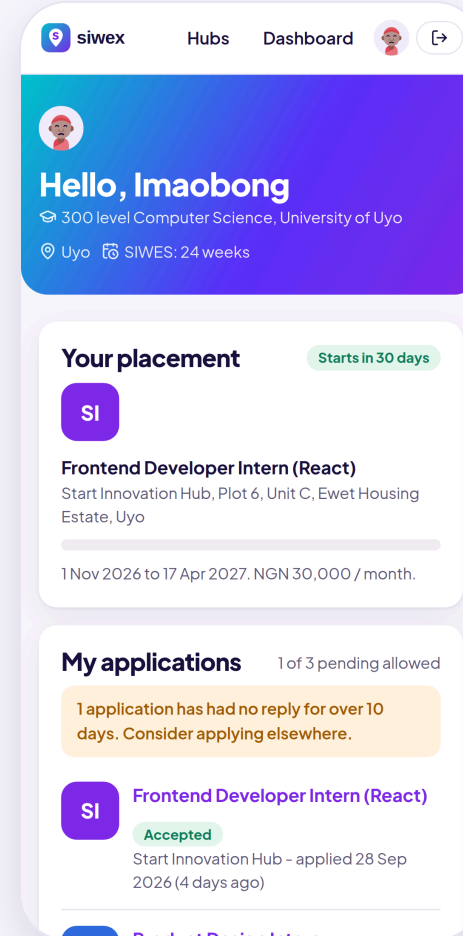

unit tests

18

integration tests on real Postgres

17

Playwright tests, desktop and mobile
